Warm-up Questions

Notes

Example: Suppose $h(x) = 3x + 7$. Solve $h(x) = -2$.

Example: Suppose $p(x)$ is given in the graph below. Solve $p(x) = 0$.

Example: Using the table below, solve $h(x) = 2$.

x	$g(x)$	$h(x)$
-3	6	3
-1	2	-3
2	5	7
3	4	2

End of Class

Write a summary of what you learned today:

What questions do you have about the material from today?

What do you need to do between now and the next class meeting?
