

GEEK WEEK 2009

Department of Mathematics

presents:

The Mathematics of Juggling

Professor Richard Ehrenborg

The Amazing Professor Ehrenborg will show how mathematics is used to study juggling patterns, explain the importance of learning foreign languages and reveal why you should finish your degree. The finale will include a juggling demonstration with his fearless assistant Eric Clark.

Pizza, free t-shirts and a drawing for an iPod are provided by the College of Arts & Sciences. Fine print: You have to be there in order to win the iPod, but you have to be there in order to eat the pizza too.

Wednesday April 8th, 2009

4:00pm in Classroom Building 118
